CONSULTANCY

Grants can feel complicated. Prosper exists to help you navigate available grants, and to help you prepare applications.

At the end of the day, grant agencies want their money out in the community. They just need to know that the way it's being spent aligns with their aspirations. We can help you spell out what you're working on, so that it is easy for grant agencies to understand why they should fund you.

Prosper will give you confidence in your submission.

While available grant rounds, and how they are awarded, is ultimately at the discretion of grant agencies, we can help bring you clarity and confidence in these processes.

We are able to either write a draft grant submission for you or review a submission you have drafted.

Overview

Where to start

TAKE THE FIRST STEPS...

So you're interested in applying for a grant yourself? How exciting! We like sharing our knowledge here at Wattle Consultancy, and the following is a snapshot to help you get underway!

There are a number of sites that compile available grants for ease of access. These include:

- [Grant Connect](#)
- [Grant Guru](#)
- [The Grants Hub](#)
- [Funding Centre](#)

Many government departments and local governments also have their own grant websites, which may be updated more regularly than the few sites listed above. Please note that the resources listed are a snapshot of the sites available and not an exhaustive list.

You can have a look at what's on these sites to see what grants are available (and what might suit your idea!), and to get a feel for what is required in a grant application.

Working with us

Ok...You've had a look into where we start, but you don't have the time and/or know-how to write an application yourself. We can do it for you!

Before we draft a grant submission, we will need some information from you. This information will generally include 'who' you are (an individual, business, not-for-profit, sports club, etc.) and 'what' you're seeking funding for (equipment, infrastructure, project management, etc.). We know that projects are highly diverse, and so are grant rounds, so it's best to book a call with us so we can discuss how we could collaborate.

Our Prosper service is for grant writing only.

If you are after more support in preparing your program, we suggest pairing our Prosper and Assure services. With this pair, we are able to work with you to build a program for your community, before applying for funding to implement the program.

If you're a government agency looking for support in preparing a strategic plan for your local government area, there may be state or federal funding available to develop these plans. We can pair our Reflect and Prosper services to assist you with both applying for funding for the project and also implementing the project.

We are able to prepare a tailored quote for any paired offerings.

Meet your consultant

Mikaela Kerwin

Founder & Director

✉ mikaela@wattleconsultancy.com.au

Hi, I'm Mikaela, the Founder and Director of Wattle Consultancy. Having grown up in regional communities, including Kyogle on Bundjalung Country and Bunbury on Noongar Boodja, I've witnessed firsthand the disparities in resource distribution.

I'm a keen problem solver and an enthusiastic chatter, and I've found that when combined these skills can result in a plethora of innovative solutions. Paired with my technical skills as a social scientist and town planner, I'm positioned to empower your community or organisation to flourish.

I'm living in Bunbury, WA, and outside my work I like to keep busy at the local football (soccer) club, reading about innovative land-use and societal changes (what can I say, I'm obsessed with the sector) and spending time with friends.

Our Values

Rest assured that ethical practice and transparency is paramount to us.

Before working with your organisation on a social research project, we will discuss the necessity of prior and informed consent from communities, and what this might look like for your project. We also take care to handle the social data with a high degree of security in order to increase the safety of your community.

Community-centric approach

We're all about your community's success. Our values are deeply rooted in empowering regional, rural, and remote areas, ensuring that our work resonates with the needs and aspirations of your unique community.

Inclusive collaboration

We thrive when we bring everyone to the table – from government agencies to businesses and community groups. Our strength lies in fostering open discussions that harmonise diverse visions.

Real solutions & real impact

We don't believe in one-size-fits-all solutions. Every community has its own story, and our approach reflects this. We're committed to delivering solutions that make a tangible difference where it matters most.

Next Steps

As our Prosper service varies depending on your project, we will prepare a tailored quote for you to ensure value for your community. We encourage you to call for an obligation-free quote, or to speak more about your needs!
